INTRODUCTION OF MO BRAND

MO is the hallmark of quality, innovation, and trust within MeTL Group's diverse manufacturing portfolio. Built on a commitment to enhancing everyday life, MO brings together a wide range of essential products—from purified drinking water, carbonated soft drinks, and fruit juices to textiles, cooking oil, Wheat Flour, soaps, detergents, and cosmetics.

Each product is crafted to the highest standards of safety, consistency, and value, reflecting our dedication to serving communities across Tanzania and beyond. MO represents reliability and progress—responding to modern consumer needs while upholding the legacy of excellence that defines MeTL Group.

Rooted in local expertise and driven by forward-thinking innovation, MO continues to grow as a trusted symbol for families, businesses, and industries alike.

With every product we create, our goal is simple: to deliver convenience, confidence, and a better quality of life.

Gulamabbas Dewji

Chairman, MeTL Group

A WORD FROM OUR CHAIRMAN

When I founded MeTL Group in the 1970s, the vision was simple yet ambitious: to build a business that would serve people with integrity, provide essential products, and contribute meaningfully to our nation's development. What began as a modest trading venture has, over the decades, transformed into one of East Africa's most diversified and impactful conglomerates.

Today, I take immense pride in witnessing how that vision has grown beyond expectations. Our journey has been guided by resilience, discipline, and an unwavering belief in creating value for society. The foundation we laid continues to guide the Group's direction as it expands across industries and borders.

As we look to the future, our commitment remains firm—to nurture sustainable growth, empower communities, and uphold the values that define who we are. The strength of MeTL Group lies not only in its scale, but in its purpose: to serve people and improve lives.

Sincerely,

Gulamabbas Dewji

Chairman, MeTL Group

A black and white photograph of Mohammed Dewji, President of MeTL Group, playing chess. He is a middle-aged man with a beard and glasses, wearing a dark suit jacket over a light-colored shirt. He is focused on the game, with his hand over a chess piece. The background is blurred, showing an indoor setting with columns.

Mohammed Dewji

President, MeTL Group

A WORD FROM OUR GROUP PRESIDENT

Dear Valued Stakeholders,

When my father, Gulamabbas Dewji, established MeTL Group in the 1970s, it was built on a bold vision and an unwavering commitment to delivering quality products at affordable prices.

Since joining the business in 1999, I have had the privilege of witnessing and contributing to its extraordinary growth. Today, MeTL Group stands as a major economic force in East Africa, continuously evolving to meet the demands of a dynamic market. Our focus remains on innovation—developing new products, introducing advanced services, and investing in technology and knowledge—while staying true to our promise of value.

We operate across Tanzania's key economic sectors, including agriculture, manufacturing, energy, logistics, financial services, and real estate, employing over 37,000 people. While proudly rooted in Tanzania, our reach extends across East and Southern Africa, with a growing footprint in multiple countries.

Beyond our economic contribution—nearly 5% of Tanzania's GDP—we are most proud of the positive impact we create in people's lives. Through the Mo Dewji Foundation, we have invested over USD 5 million in education, healthcare, water access, and women's empowerment.

Our journey is driven by purpose and guided by our identity as “the people's brand.” This catalogue reflects not only our products but also our enduring commitment to improving lives.

Warm regards,

Sincerely,

Mohammed Dewji

President, MeTL Group

Hassan Dewji

Group Director, HR

A WORD FROM OUR PEOPLE'S DIRECTOR

At MeTL Group, we build products that touch millions of lives but every one of those products begins with a person. Behind our farms, factories, refineries, and distribution networks stands a workforce of more than 50,000 people across six countries, and it is their skill, commitment, and character that turn our vision into reality each day.

I have always believed that people are not resources to be managed, but individuals to be understood. The role of our HR function is to create an environment where every person from the plantation to the boardroom feels valued, heard, and trusted to do their best work. When people are respected as individuals, they bring their full selves to what they do, and the organisation grows because of it.

Great institutions are not built through control, but through trust. We invest in developing our people, give them the clarity to understand where we are going, and the freedom to decide how to get there. We lead from the front, keep our teams focused on what truly matters, and empower them to think, act, and deliver. Time and again, the results speak for themselves.

As we continue to expand across industries and borders, our commitment to our people remains unchanged to attract exceptional talent, nurture leadership at every level, and build a culture where growth, dignity, and opportunity are shared by all. Our people are not simply part of our success they are the reason for it.

MeTL is “the people’s brand” That promise begins on the inside, with the people who make it possible.

Warm regards,

Hassan Dewji

Group Director HR

Hussein Dewji

Group Director, Sales

A WORD FROM OUR SALES DIRECTOR

At MeTL Group, our success is measured not only by the scale of our operations but by how effectively our products reach and serve our customers.

Our sales philosophy is rooted in accessibility, reliability, and strong partnerships. We work tirelessly to ensure that MO products are available across urban and rural markets alike, reaching households, businesses, and institutions wherever they are.

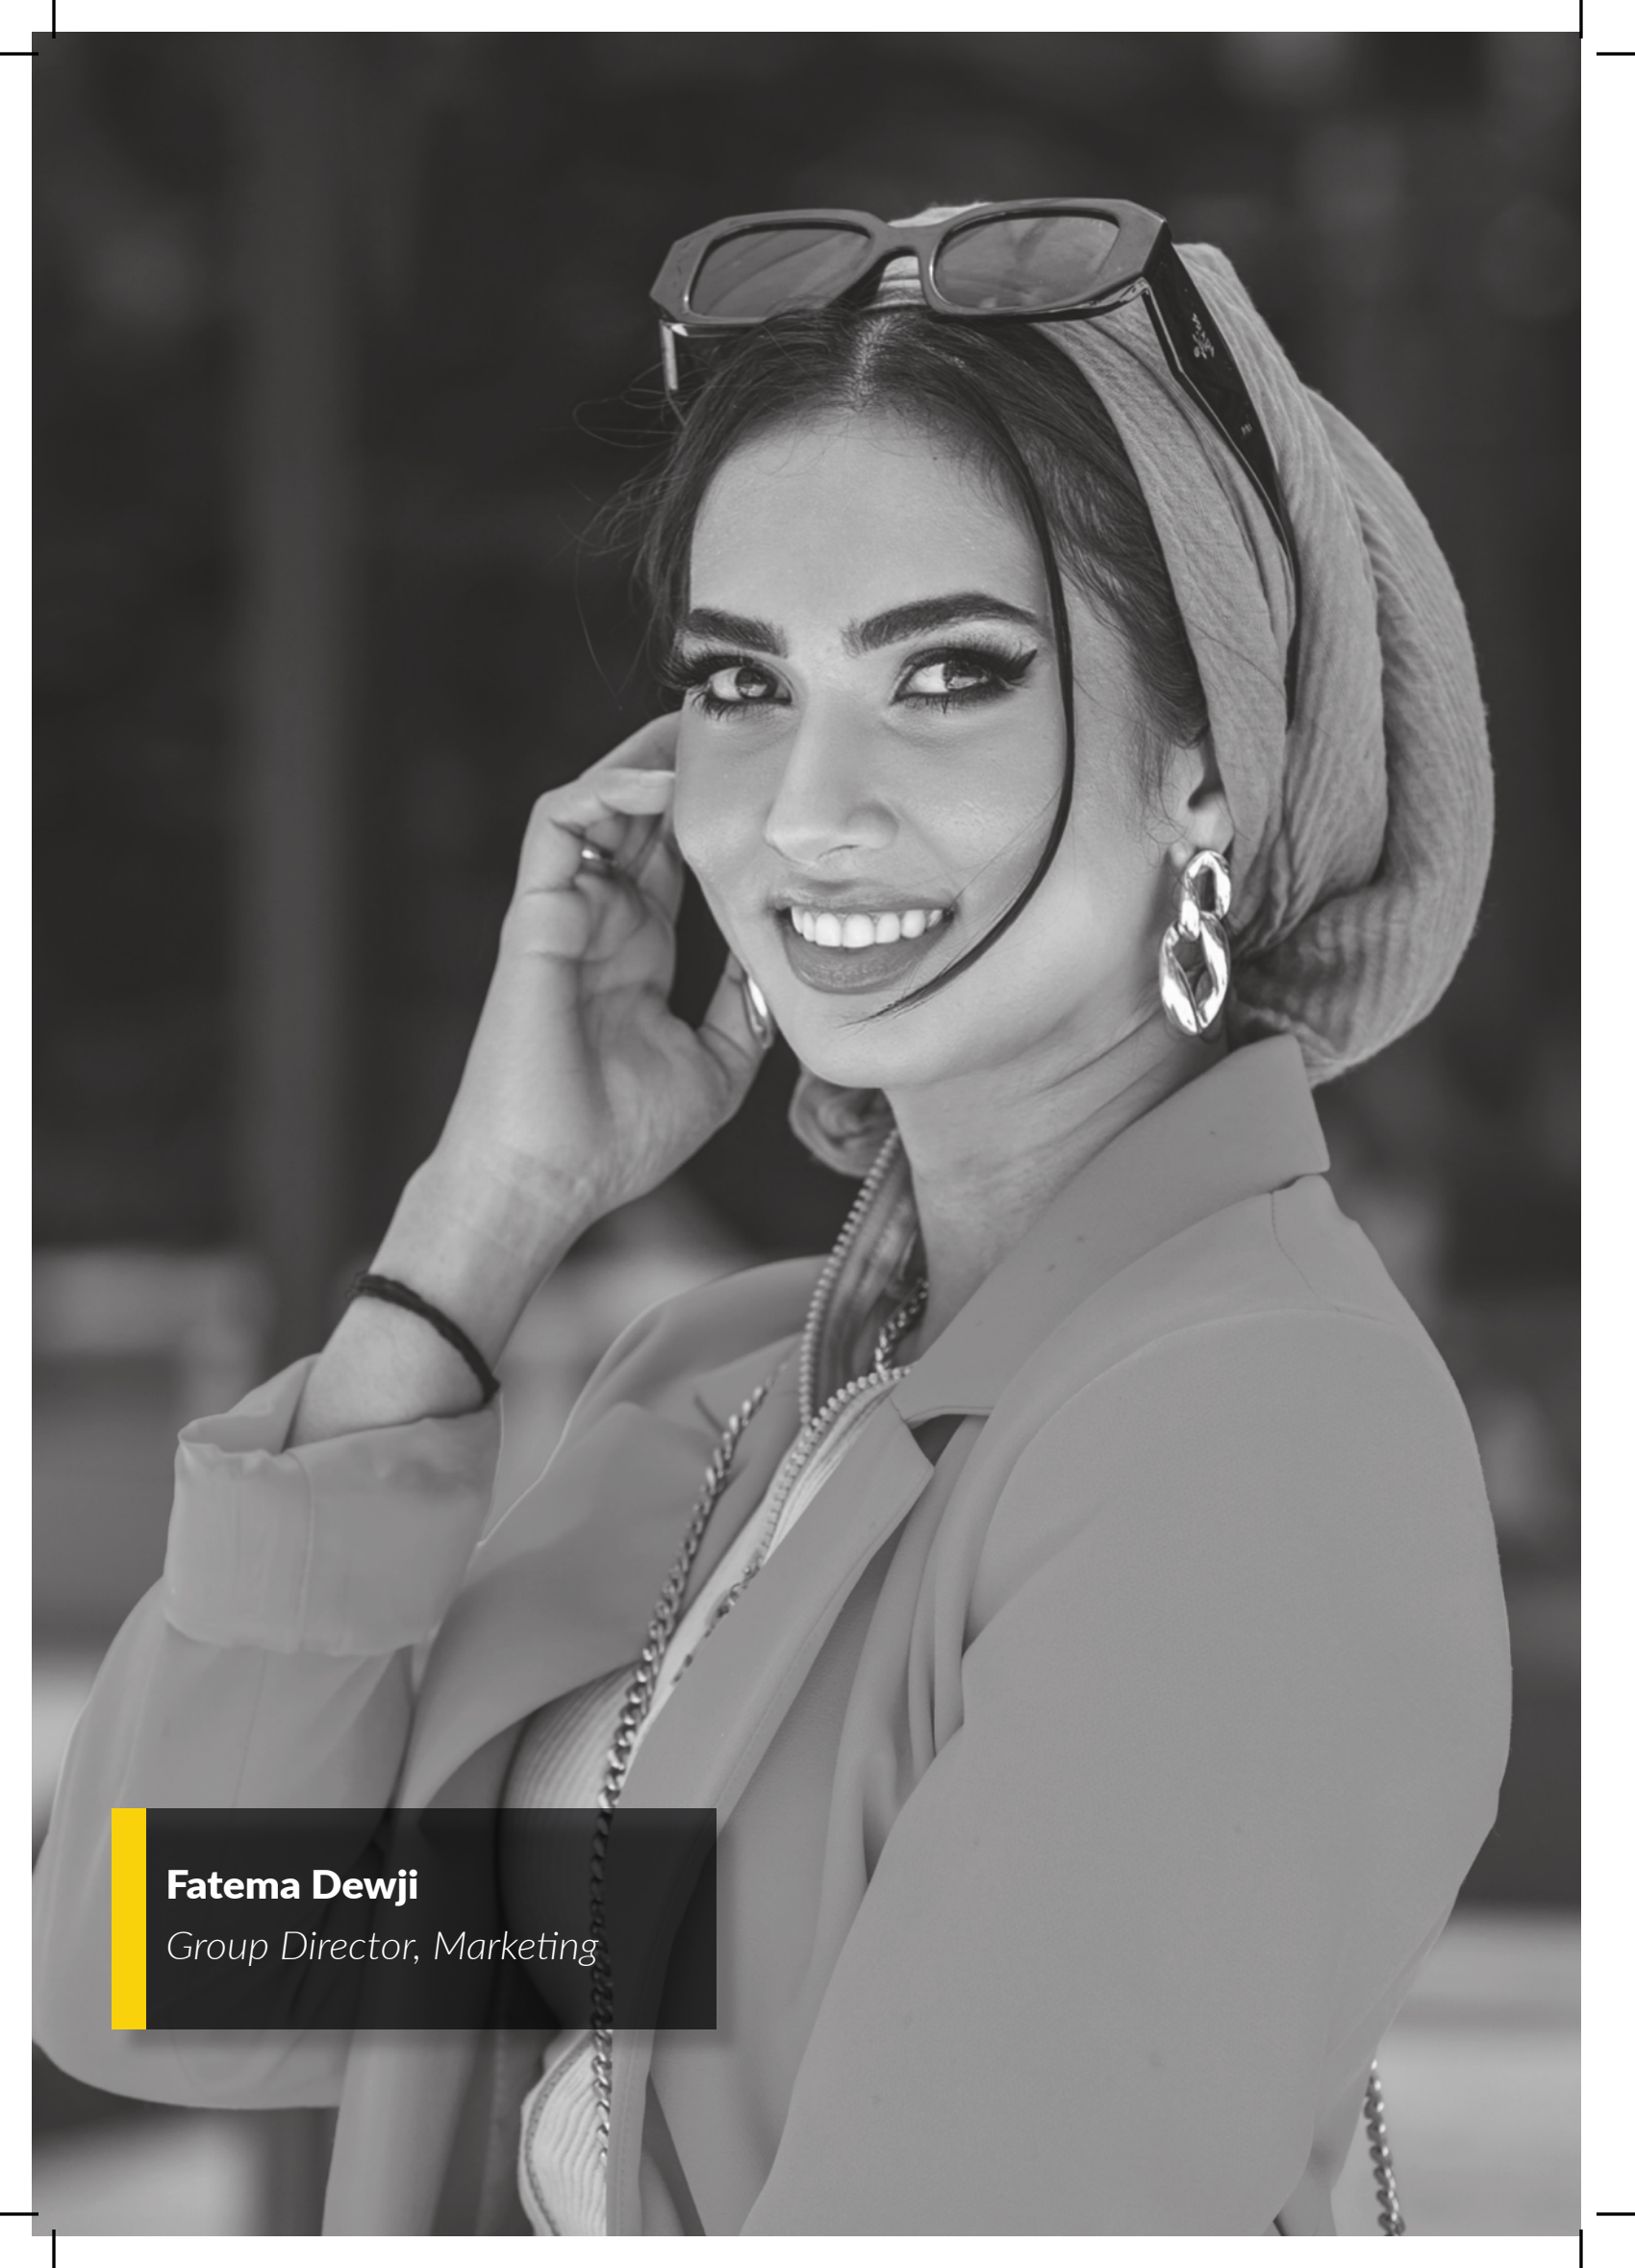

Through an extensive distribution network and a dedicated sales force, we bridge the gap between production and consumption—ensuring consistent supply, competitive pricing, and market responsiveness.

We are constantly strengthening our channels, embracing modern trade systems, and leveraging data-driven insights to better understand our customers' needs. This enables us to deliver not just products, but value and trust.

As we move forward, our focus remains clear: expanding our reach, enhancing customer experience, and ensuring that every MO product continues to meet the expectations of those who rely on it every day.

Hussein Dewji

Sales Director, MeTL Group

Fatema Dewji

Group Director, Marketing

A WORD FROM OUR MARKETING DIRECTOR

“At MeTL Group, we believe that a truly impactful brand is one that understands the everyday needs of its people—and works tirelessly to meet them. This belief is the foundation of the MO brand.

As we proudly say, ‘Touching Your Lives’ (Tunagusa Maisha Yako), MO is more than a name; it is a promise. A promise to deliver products that simplify, support, and enrich daily life.

From clean drinking water and refreshing beverages to textiles, cooking essentials, and personal care products, every MO item is designed with purpose. We focus on real solutions for real households—products that people not only use, but depend on.

As we continue to grow, our commitment remains unchanged: delivering high-quality, affordable, and accessible products that improve everyday living. We listen, innovate, and evolve—ensuring our consumers experience convenience, comfort, and confidence.

This catalogue represents our journey of staying connected to the people we serve. We are grateful for the trust placed in us and remain dedicated to touching lives for generations to come.”

Fatema G. Dewji

Marketing Director, MeTL Group

Agriculture

Farming • Farm Implements • Spares • Fertilizer • Agrochemicals

TPM (1998) Ltd • 21st Century Holdings Ltd • MeTL Agro • MeTL Group

Agriculture accounts for approximately 65% of Tanzania's GDP and 30% of the country's foreign exchange earnings. MeTL Group's farming activities are aligned with Tanzania's agricultural growth and development plans and the Group's vision of becoming a fully integrated company.

We work closely with local smallholder farmers through our out-grower development scheme to improve the quality and yields of local farms, boosting individual farmer incomes while growing rural economies. MeTL Group currently has over 34,500 hectares of sisal, over 8,000 hectares of tea, 80 hectares of macadamia, 80 hectares of avocados, and 1580 hectares of cashews growing on our farms.

Produce from the MeTL Group farms and supply from local smallholder farmers feed directly into the Group's textile mill, tea packaging factory, cashew processing

plant, sisal processing plant, and edible oil refinery.

Surplus produce from MeTL Group farms and other agricultural products purchased directly from the farm gates are cleaned, processed and graded at points of purchase so that they can be exported globally. Our agricultural export portfolio includes cocoa, sesame seeds, sunflower seeds, pigeon peas, yellow gram, cardamoms, castor seeds, coriander seeds, green moong, groundnuts, honey, soya beans, tea, red beans, maize, gum Arabic, and bee wax.

Fallow land development, along with further land investments for large-scale cultivation of our products, will boost our production capacities and fulfil increasing demand both domestically and among export markets

SISAL

MeTL Group operates 11 sisal plantations, spanning over 34,500 hectares in five Tanzanian regions - Morogoro, Tanga, Coast, Kilimanjaro, and Lindi. Group farms produce approximately 10,000 metric tons of sisal fibre per annum, contributing 35% to Tanzania's total sisal production.

We aim to double land capacity and produce between 18,000 - 20,000 metric tons of sisal fibre per annum to meet growing domestic and export demands.

At the farms, the sisal leaves are processed into fibres using decorticators. The subsequent waste pulp produced is a potent biogas material with the potential to produce electricity. MeTL Group's 11 decorticators can produce 6-12

megawatts of energy. Today, an approximate 2 million USD investment is in the pipeline to commission each centre to produce one megawatt of power from freely available sisal waste material.

The bulk of the sisal fibre produced on MeTL Group estates undergoes value addition via 21st Century Holdings LTD, the Group's sisal-spinning mill before it is sent to market. Excess fibre is exported predominantly to markets in the Middle East, Europe, Nigeria, and India.

COTTON

MeTL Group is the largest textile producer in Sub-Saharan Africa, boasting an annual production of over 100 million running metres of fabric. To achieve and maintain this position, MeTL has established sustainable backward integration programs. These include setting up our own cotton ginnery and upskilling local cotton farmers' business groups, helping to improve the quality and quantity of their yields.

The Group's cotton ginnery was established in 2011 and has an installed capacity of 300 bales per day (105,000 bales per annum). The plant can process 6,000 kg of seed per hour, totalling more than 45,000 metric tons of seed per annum.

Since the ginnery was established, MeTL Group has processed seeded cotton for spinning purposes and exported cottonseed to various global markets, including India, China, Bangladesh, Thailand, Vietnam, Malaysia, Indonesia, Korea, Kenya, and Switzerland.

Our ginnery, combined with our bulk purchase of seeded cotton, have, directly and indirectly, ensured sustainable livelihoods for more than 6,000 cotton farmers countrywide.

FINANCIAL SERVICES

Seamless Financing for Your Wheels of Success

Seamless Financing for Your Wheels of Success

MO Finance Corporation Limited is a dynamic financial services provider operating under the umbrella of the MeTL Group, one of the largest and most diversified conglomerates in East Africa.

MO Finance Corporation Limited is driven by a strong commitment to financial inclusion. We believe that access to finance should not be a privilege, but a right for all—regardless of background, income level, or geographic location.

MO Finance mission is to bridge financial gaps by delivering accessible, affordable, and sustainable financing solutions tailored to the needs of individuals, small business owners, and entrepreneurs across Tanzania.

Mo Finance core focus is on asset-based financing, which empowers clients to own income-generating tools such as motorcycles, auto rickshaws, tractors, and trucks. These assets do more than generate revenue—they unlock opportunities, improve livelihoods, and drive long-term economic stability.

Financial growth in the finance industry hinges on the strategic implementation of a diverse portfolio and wide-ranging customer base. By mitigating risks, capitalizing on opportunities, and fostering long-term stability, Mo finance has achieved sustain success.

Cultivating a diverse clientele further enhanced resilience and growth prospects. Through research, tailored products, effective risk management, and proactive marketing, MO finance thrived in a competitive landscape, securing its position through financial inclusion.

Our Key Loan Products

Bajaj Two-Wheelers and Three-Wheelers, TAFE brands of Tractors & Implements, and Trucks

For individuals eager to enter the popular and growing bodaboda transport sector, we offer loans for Bajaj motorcycles and three-wheelers. These vehicles are renowned for their durability, fuel efficiency, and ease of maintenance, making them ideal for daily transport services across urban and rural areas. TAFE Tractors (Agriculture Business) For farmers and agricultural entrepreneurs, MO Finance provides flexible financing options for the acquisition of TAFE tractors. These robust machines are suited for various farming activities, enabling farmers to boost productivity, increase yields, and contribute to food security and rural development.

Dong Feng Trucks (Trade and Transport Business) For those looking to expand in the trade and logistics sectors, we offer financing for Dong Feng trucks - vehicles known for their strength, reliability, and capacity. These trucks are perfect for transporting goods across long distances, supporting the growth of trade businesses and enhancing supply chain operations.

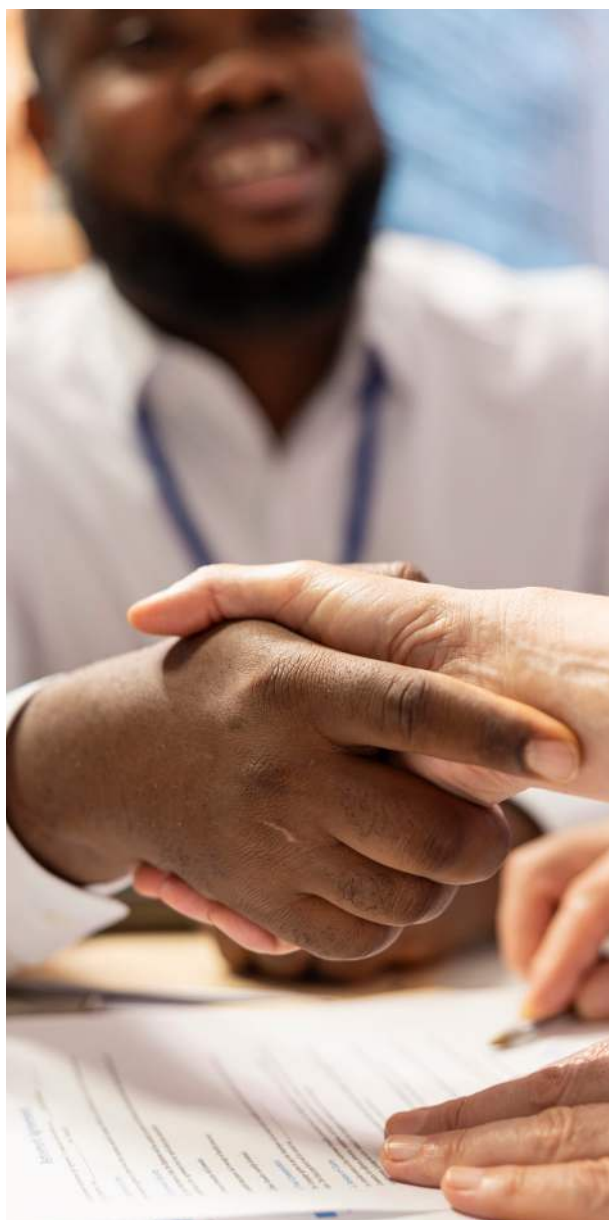

Finance

INSURANCE SERVICES

Mo Coverage, More Peace

Mo Assurance is MeTL Group's first venture into the country's financial services sector. Mo Assurance, launched in 2007 is unique amongst Tanzania's insurance business fraternity. It is the first fully Tanzanian, private sector insurer.

A late entrant into the insurance business, Mo Assurance is proud to have a significant share of the market and be one of the country's top 5 profit-making insurance companies. We attribute our success in Tanzania to our groundbreaking micro-insurance offerings.

Mo Assurance has disrupted the traditional insurance market by bringing affordable insurance that can be purchased easily by all customers. For as low as TZS 1500 per month (USD 0.64) people can buy coverage easily on their mobile phones through Tigo or Vodacom. With only 40 employees and three regional offices in Arusha, Mwanza, and Zanzibar, Mo Assurance has capitalised on mobile technology and MeTL Group's brand recognition, growing its footprint and client base to more than 80,000.

Mo Assurance offers more than 25 general insurance products in partnership with Milvik and distributed through Tigo and Vodacom. Our range of insurance products include travel and health insurance. Fire, allied & special perils, burglary, consequential loss insurance, accident, theft and fraud, product liability, public liability, marine cargo, workmen's compensation, motor insurance, domestic package for homeowners, and contractor's all risk insurance.

Insurance carriers promise that when customers have mishaps, they will get them back on track. At Mo Assurance we pride ourselves as an insurer who puts lives first while offering exceptional customer service and paying claims promptly. Our goal is to grow our product offerings to 1,000,000 in the next five years - we are on track.
